Are you transferring to UCLA Samueli Engineering in fall 2018? Are you concerned about the transition to a new school? Want to build a solid foundation in your first year that will impact the value of your UCLA Engineering experience? Would you like to experience the UCLA Engineering classroom before school starts and meet other transfer students? Join us at Transfer Bridge to UCLA Samueli Engineering!

What: 2 week Bridge Program
Who: Fall 2018 incoming engineering transfer students
Where: UCLA Henry Samueli School of Engineering & Applied Science
When: September 5 – 19, 2018 | 9:45 – 6:30PM | M - F

Classroom experience - Transfer Bridge participants will gain a competitive edge in their 1st year of UCLA coursework through our advanced learning classroom experience. Gain early exposure to course content, experience the rigor of the UCLA Engineering classroom, and develop your study strategies and partners before your performance counts.

Content from – CS31, CS32, MAE M20, & CEE M20

Technical projects are an excellent opportunity to gain experience using your engineering skills to solve problems. Industry partners value these experiences as it demonstrates your abilities as a prospective engineer. At Transfer Bridge, participants will get their hands dirty on a technical design project that exposes them to the engineering design process and learn how to access more of these opportunities at UCLA Engineering.

"I wish I would have known how to study ‘smarter’ for my classes. Time is limited and adapting to the workload and rhythm of the quarter system is difficult."

"My first quarter was such a whirlwind. Figuring out how to get decent grades completely impacted my ability to get involved in everything they said I should get involved with."

~Feedback from 2017 Transfer Student Survey

Accelerate access to transfer success by understanding what to expect, learning about resources for transfer students, getting to know your cohort, and access to professional and enhanced learning opportunities for UCLA Engineering students.

...and have some fun!!!

Gain a competitive edge on your peers, make the most of your time at UCLA Engineering, and maximize your ability to be competitive after graduation. Join us at the Transfer Bridge to UCLA Samueli Engineering in summer 2018!

Eligibility
You must be a newly admitted UCLA Engineering transfer student starting in and enrolled in fall quarter 2018.

For more information
To learn more about Transfer Bridge or the application process, please visit the New Student Programs section for Current Students on our website: https://etransfercenter.seas.ucla.edu/, or email Wes Uehara, Community College Outreach Coordinator at wuehara@seas.ucla.edu.

Deadline August 17, 2018
50 spots available

Tuition, Housing, & Parking
In 2018, tuition for the Transfer Bridge Program is fully subsidized. A $100 refundable deposit is required to hold your spot. Your deposit will be returned to you upon completion of the program. There are currently no campus housing options. Participants will need to commute to campus or find local housing accommodations. Parking permits will be issues to participants who are commuting from outside the Westwood area.
